SUMMARY

Senior Product Designer with 6+ years shaping digital products across travel and transport, from complex booking flows to B2B partner platforms used by online travel agencies. Owns the full product design process — research, information architecture, interaction design, prototyping, and design systems — with a strong eye for typography and visual hierarchy from a background in editorial and graphic design. Focused on the point where user needs and business goals meet, and now seeking a Product Designer / UX-UI Designer role in Europe.

EXPERIENCE

Senior Product Designer Nov 2022 – Present

Fadak Trains | Tehran, Iran

- Led end-to-end design of the responsive train ticket booking experience across mobile and desktop, reducing cart abandonment and simplifying the checkout flow.
- Designed and shipped a B2B web panel for Online Travel Agencies (OTAs), automating and scaling the ticket distribution process for business partners.
- Owned the design system and UI pattern library across the platform, ensuring visual and interaction consistency across the web app and internal panels.
- Collaborated closely with product managers and engineers to translate research and business goals into shipped features.

User Experience Designer Dec 2021 – Nov 2022

Fadak Trains | Tehran Province, Iran

- Designed a unified train ticket and hotel booking flow, reducing the number of steps required to complete a purchase.
- Designed a Progressive Web App (PWA) for a door-to-station passenger transfer service, including scheduled booking and order status tracking.

Junior UX Designer Jul 2020 – Nov 2021

Sava Local | Tehran Province, Iran

- Redesigned key sections of the website's user experience to improve navigation clarity and increase user engagement.
- Conducted usability testing to identify friction points and inform design iterations.

Graphic Designer → Layout Designer Mar 2016 – Jun 2020

Daneshmand Magazine | Tehran Province, Iran

- Owned monthly layout production and page design for a popular science magazine, building a strong foundation in typography and visual hierarchy that carries into product design work today.
