SUMMARY

I'm a product designer with 6+ years of experience in digital products. I've worked through complex processes across B2C services, B2B platforms, and SaaS. I usually own the entire product design process, from understanding requirements and user research to information architecture, interaction design, prototyping, and design systems. AI has become an inseparable, enabling part of my design workflow, and I use it at almost every stage. What interests me most is looking at user needs and business goals together and finding the best outcome where the two intersect. I work closely with product managers and developers to bring ideas to production in the best possible form, aiming for results that move the numbers. Continuous improvement after launch matters a lot to me too.

My background in graphic design and editorial layout gives me a sharp eye for visual hierarchy, typography, and the finer details of design. I'd be glad to help your product(s) improve and grow.

EXPERIENCE

Senior Product Designer

Fadak Trains | Tehran, Iran | March 2024 - Present

- Redesigned "My Trips" end to end, prototyping in Claude Design and analyzing usage data with AI to validate decisions before handoff.
- Designed and shipped a B2B web panel for Online Travel Agencies (OTAs), automating ticket distribution and enabling partners to scale sales without manual operations.
- Owned and evolved the design system and UI pattern library across the consumer web app and internal panels, improving consistency and speeding up design-to-development handoff.
- Led design decisions across product initiatives, partnering with PMs and engineering leads on roadmap priorities and scope.
- Set design review practices and quality standards across the team.

Product Designer

Fadak Trains | Tehran, Iran | November 2022 - March 2024

- Led end-to-end design of the responsive train ticket booking experience across mobile and desktop, from discovery to delivery.
- Redesigned and simplified the checkout flow based on usability testing and analytics, reducing cart abandonment by 9%.
- Introduced the first shared component library, laying the groundwork for the company-wide design system.

UI/UX Designer

Fadak Trains | Tehran Province, Iran | November 2021 - November 2022

- Designed a unified train ticket and hotel booking flow, reducing the number of steps required to complete a purchase.
- Designed a Progressive Web App (PWA) for a door-to-station passenger transfer service, including scheduled booking and order status tracking.
- Used behavioral analytics (Microsoft Clarity) to identify friction points and inform design improvements.

Junior User Experience Designer

Sava Local | Tehran Province, Iran | July 2020 - November 2021

- Contributed to the redesign of key website sections, improving navigation clarity and user engagement.
- Created wireframes, user flows and UI designs in Figma for new and existing features.
- Gathered user feedback and supported usability reviews to identify pain points and guide design iterations.

Graphic Designer
Freelance / Self-Employed | September 2015 - November 2021

- Designed print and digital magazines end to end, including covers, grid systems, typography and page layouts tailored to each publication's audience and format.
- Created a wide range of marketing and promotional materials, including posters, brochures, flyers, social media graphics and event collateral.
- Developed visual identities for brands and startups, including logos, color palettes, typography systems and brand guidelines for consistent use across print and digital touchpoints.

Layout Designer
Daneshmand Magazine | Tehran Province, Iran | February 2019 - June 2020

- Took ownership of the end-to-end layout of Daneshmand, a monthly popular-science magazine, turning complex scientific content into clear, readable editorial pages.
- Built and maintained grid systems, typographic styles and reusable page templates to keep visual consistency across issues.
- Collaborated with editors and writers to balance text, imagery and infographics, sharpening visual hierarchy and readability.
- Delivered every issue on a fixed monthly print deadline.

Graphic Designer
Daneshmand Magazine | Tehran Province, Iran | March 2016 - January 2019

- Designed graphic elements, illustrations and page layouts for the institute's print publications.
- Created infographics and visual assets that made scientific concepts easier for a general audience to understand.
- Worked within established brand and editorial guidelines to keep publications visually consistent.

SKILLS

Product Design, UX/UI Design, Interaction Design, Information Architecture, Design Systems, User Research, Usability Testing, Prototyping, AI-Assisted Design, Responsive and Mobile-First Design, Accessibility (WCAG), Brand Identity, Editorial Design, Typography, Cross-functional Collaboration

TOOLS

Figma, FigJam, Claude Design, Microsoft Clarity, Jira, Trello, Adobe Photoshop, Adobe Illustrator

EDUCATION

Bachelor of Science (BSc), Plant Protection Engineering
Shahid Chamran University | 2012 - 2016

CERTIFICATIONS

- Product Design Certificate
- General Product Management Course
- Marshall Product Design Course
- Foundations of User Experience (UX) Design

LANGUAGES

Persian (Native or Bilingual), English (Full Professional)
